

PRODUCT INFORMATION

Clone ID **DMC468 Target** CLEC1A

Synonyms CLEC-1; CLEC1

Host Species Rabbit

Anti-CLEC1A antibody(DMC468); IgG1 Chimeric Description mAb

Delivery In Stock **Uniprot ID Q8NC01**

Rabbit/Human Fc chimeric IgG1 IgG type

Clonality Monoclonal Reactivity Human **Applications** Flow Cyt

Recommended

Flow Cyt 1:100 **Dilutions**

Purified from cell culture supernatant by affinity **Purification**

chromatography

Lyophilized from sterile PBS, pH 7.4. Normally 5 % Formulation & - 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis Reconstitution

for specific instructions of reconstitution. Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not

intended for use within a month, aliquot and store Storage & Shipping at -80°C (Avoid repeated freezing and thawing).

Lyophilized proteins are shipped at ambient

témperature.

This gene encodes a member of the C-type lectin:C-type lectin-like domain (CTL:CTLD) superfamily. Members of this family share a common protein fold and have diverse functions; such as cell adhesion; cell-cell signaling;

glycoprotein turnover; and roles in inflammation

and immune response. The encoded protein may play a role in regulating dendritic cell function. **Background**

This gene is closely linked to other CTL:CTLD superfamily members on chromosome 12p13 in the natural killer gene complex region.

Alternative splicing results in multiple transcript variants. [provided by RefSeq; Jul 2014]

Research use only **Usage** Conjugate Unconjugated

All DIMA recombinant antibodies are genuinely

generated by DIMA Biotech. They are all under patent application. Any protein sequencing or reverse engineering attempt is prohibited. We are

actively scrutinizing all patent application to

ensure no IP infringement.
