| Formulation & Reconstitution | Lyophilized from sterile PBS, pH 7.4. Normally 5<br>% – 8% trehalose is added as protectants before<br>lyophilization. Please see Certificate of Analysis<br>for specific instructions of reconstitution.                                                                                                       |
