

PRODUCT INFORMATION

	Clone ID	DM102	
	Target	CD40	
	Synonyms	CD40; Bp50; CDW40; MGC9013; TNFRSF5; p50	
	Host Species	Rabbit	
	Description	Biotinylated Anti-CD40 antibody(DM102); Rabbit mAb	
	Delivery	2-3 weeks	
	Uniprot ID	P25942	
	lgG type	Rabbit IgG	
	Clonality	Monoclonal	
	Reactivity	Human	
	Applications	ELISA; Flow Cyt	
	Recommended Dilutions	ELISA 1:5000-10000; Flow Cyt 1:100	
	Purification	Purified from cell culture supernatant by affinity chromatography	
	Formulation & Reconstitution	Lyophilized from sterile PBS, pH 7.4. Normally 5 % – 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis for specific instructions of reconstitution.	
	Storage & Shipping	Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient temperature.	
	Background	This gene is a member of the TNF-receptor superfamily. The encoded protein is a receptor on antigen-presenting cells of the immune system and is essential for mediating a broad variety of immune and inflammatory responses including T cell-dependent immunoglobulin class switching; memory B cell development; and germinal center formation. AT-hook transcription factor AKNA is reported to coordinately regulate the expression of this receptor and its ligand; which may be important for homotypic cell interactions. Adaptor protein TNFR2 interacts with this receptor and serves as a mediator of the signal transduction. The interaction of this receptor and its ligand is found to be necessary for amyloid-beta-induced microglial activation; and thus is thought to be an early event in Alzheimer disease pathogenesis. Mutations affecting this gene are the cause of autosomal recessive hyper-IgM immunodeficiency type 3 (HIGM3). Multiple alternatively spliced transcript variants of this gene encoding distinct isoforms have been reported.	
	Usage	Research use only	
	Conjugate	Biotinylated	
	DIMA Disclaimer	All DIMA recombinant antibodies are genuinely generated by DIMA Biotech. They are all under patent application. Any protein sequencing or reverse engineering attempt is prohibited. We are actively scrutinizing all patent application to ensure no IP infringement.
