

PRODUCT INFORMATION

Clone ID DM204 **Target CD73**

Synonyms CD73;NT5E;5'-Nucleotidase;5'-NT;NT5;NTE

Host Species Rabbit

Biotinylated Anti-CD73 antibody(DM204); Rabbit Description

mAb **Delivery** In Stock **Uniprot ID** P21589 Rabbit IgG IgG type Clonality Monoclonal

Applications ELISA; Flow Cyt

Recommended

Reactivity

Flow Cyt 15µg/ml **Dilutions**

Purified from cell culture supernatant by affinity **Purification**

chromatography

Human

Lyophilized from sterile PBS, pH 7.4. Normally 5 % Formulation & - 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis Reconstitution

for specific instructions of reconstitution. Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not

intended for use within a month, aliquot and store Storage & Shipping at -80°C (Avoid repeated freezing and thawing).

Lyophilized proteins are shipped at ambient

temperature.

The protein encoded by this gene is a plasma membrane protein that catalyzes the conversion of extracellular nucleotides to membranepermeable nucleosides. The encoded protein is

used as a determinant of lymphocyte

Background differentiation. Defects in this gene can lead to

the calcification of joints and arteries. Two transcript variants encoding different isoforms have been found for this gene [provided by

RefSeg; Mar 2011]

Usage Research use only

Conjugate Biotinylated
