## **PRODUCT INFORMATION**

Clone ID 17G10 **GFAP Target ALXDRD Synonyms Host Species** Rabbit

Biotinylated Anti-GFAP(68-377) antibody(17G10), Description Rabbit mAb

**Delivery** 2-3 weeks **Uniprot ID** P14136 Rabbit IgG IgG type Clonality Monoclonal

Reactivity Human **Applications ELISA** 

Recommended

Storage & Shipping

**DIMA Disclaimer** 

ELISA 1:5000-10000 **Dilutions** 

Purified from cell culture supernatant by affinity **Purification** 

chromatography

Lyophilized from sterile PBS, pH 7.4. Normally 5 % Formulation & - 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis Reconstitution

for specific instructions of reconstitution. Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not

intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing).

Lyophilized proteins are shipped at ambient

temperature.

This gene encodes one of the major intermediate filament proteins of mature astrocytes. It is used as a marker to distinguish astrocytes from other glial cells during development. Mutations in this

**Background** gene cause Alexander disease, a rare disorder of astrocytes in the central nervous system.

Alternative splicing results in multiple transcript variants encoding distinct isoforms. [provided by

RefSeq, Oct 2008]

**Usage** Research use only

Conjugate Biotinylated
