

PRODUCT INFORMATION

Clone ID **DM79 Target GITR**

Synonyms AITR; GITR; TNFRSF18; CD357

Host Species Rabbit

Biotinylated Anti-GITR antibody(DM79); Rabbit Description mAb

> 2-3 weeks Q9Y5U5

Uniprot ID Rabbit IgG IgG type Clonality Monoclonal Reactivity Human

Applications ELISA; Flow Cyt

Recommended

Delivery

ELISA 1:5000-10000; Flow Cyt 1:100 **Dilutions**

Purified from cell culture supernatant by affinity **Purification**

chromatography

Lyophilized from sterile PBS, pH 7.4. Normally 5 % Formulation & - 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis Reconstitution

for specific instructions of reconstitution. Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not

intended for use within a month, aliquot and store Storage & Shipping at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient

temperature.

This gene encodes a member of the TNF-receptor superfamily. The encoded receptor has been shown to have increased expression upon T-cell activation; and it is thought to play a key role in

dominant immunological self-tolerance maintained by CD25()CD4() regulatory T cells. Knockout studies in mice also suggest the role of this receptor is in the regulation of CD3-driven T-**Background**

cell activation and programmed cell death. Three alternatively spliced transcript variants of this gene encoding distinct isoforms have been

reported.

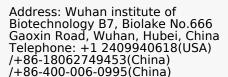

Usage Research use only

Conjugate Biotinylated
