Cat. No. DMC100223B

PRODUCT INFORMATION

Clone ID **DMC223** TREM2 **Target**

Synonyms PLOSL2; TREM-2; Trem2a; Trem2b; Trem2c

Host Species

Biotinylated Anti-TREM2 antibody(DMC223); IgG1 Description

Chimeric mAb

Delivery 2-3 weeks **Uniprot ID** Q9NZC2

Rabbit/Human Fc chimeric IgG1 IgG type

Clonality Monoclonal Reactivity Human

Applications ELISA; Flow Cyt

Recommended

Background

DIMA Disclaimer

ELISA 1:5000-10000; Flow Cyt 1:100 **Dilutions**

Purified from cell culture supernatant by affinity **Purification**

chromatography

Lyophilized from sterile PBS, pH 7.4. Normally 5 % Formulation & - 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis Reconstitution

for specific instructions of reconstitution. Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not

intended for use within a month, aliquot and store Storage & Shipping at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient

témperature.

This gene encodes a membrane protein that forms a receptor signaling complex with the TYRO protein tyrosine kinase binding protein. The encoded protein functions in immune response and may be involved in chronic inflammation by triggering the production of constitutive

inflammatory cytokines. Defects in this gene are a cause of polycystic lipomembranous

osteodysplasiá with sclerosing leukoencephalopathy (PLOSL). Alternative splicing results in multiple transcript variants encoding

different isoforms.

Research use only Usage

Conjugate Biotinylated

> All DIMA recombinant antibodies are genuinely generated by DIMA Biotech. They are all under patent application. Any protein sequencing or reverse engineering attempt is prohibited. We are

actively scrutinizing all patent application to

ensure no IP infringement.
